NEW PLANETARIUM SHOWS

GREAT PLANET ADVENTURES

Off-World Thrills on Every Planet

With muscles and bones made on Earth, you'll be a super star on the solar system's low-gravity worlds. Imagine zip lining on the scorched Mercury or snowmobiling when it really snows on Pluto. Bungee jumping into outer space from an asteroid is like low-g diving from

the tallest cliff or rappelling into deepest canyon in the solar system. Without gravity's strong pull, you can glide over the hydrocarbon lakes of Titan, jet-pack in a geyser's spray on Triton, or even drive a monster truck along a steep lunar crater wall. **The Great Planet Adventures** brings you each of these incredible off-world adventures.

Includes 2 free immersive full-dome games: **Armstrong Base Trucking**, and **Mars Flyer**.

The **Great Planet Adventures** show is also available in a "KIDS" version and as individual adventure clips.

Languages: English, Spanish, Arabic, French, Tamil, Telugu

FATE OF THE MAYA

In this updated version of our show **MAYAN PROPHECIES**, viewers visit classic Mayan cities to discover how the Maya aligned their temples as observatories to watch their sky gods, and used interlocking calendars to record the past and predict the future.

Experience the apocalypse of the Maya, and discover the reasons why their civilization collapsed.

The show license also includes an immersive dome adventure: "Ghosts Of Tikal".

Already own **MAYAN PROPHECIES**? Get the updated show free for only the cost of any media handling charges.

PRODUCT NEWS

- **New negative pressure geodesic dome** - will be demonstrated at ASTC (see other side for details).
- **Loch Ness Productions** now offers "**FULLDOME OnDemand**". Users can play many pre-warped shows for \$30 for 3 days - great for a special viewing! (Must play live through browser)
- **DVD versions** of our shows can be bounced off our mirror system and fill more than half of the dome. We allow individuals and schools to use these watermarked versions in their theaters (only if tickets are not sold).
- We have many more **foreign languages available**, and can translate any of our shows into Spanish, French, Arabic, Hindi and Telugu with our translators.
- Our small, **personal size dome** for gaming or small-group watching, is perfect for using the DVD version of our shows.
- Customers under **service contract** get 10-15% off shows and equipment. Extend the contract for 6 months by purchasing a new show, or pay \$500 for two years extension.

SOFTWARE UPDATES

MediaShow v4.6 now supports subtitles on demand, making new translations easy. Foreign language scripts can be turned on and off by the user during playback.

UPCOMING EVENTS

- | | |

FREE SHOWS

We now distribute the following free shows, available for portable and fixed domes...

Back to the Moon for Good

Flight Adventures (US only)

From the Earth to the Universe

IBEX: Search for the Edge of the Solar System

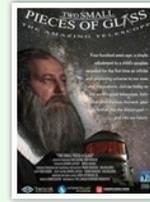

New Horizons for a Little Planet

Losing the Dark

Saturn the Ring World 2

Two Small Pieces of Glass

The GEO-GO-DOME™

Announcing a NEW semipermanent walk-in dome: Want a walk-in dome for an exhibit at your museum or for an outside or multi-day event? Try our negative-pressure geodesic dome, the **Geo-Go-Dome™**.

This very strong dome comes in three possible configurations:

- 2m spring height (standing users)
- 1m spring height (sitting users)
- specials: tilted or no spring line

Special walk-in flap is perfect for come-and-go visitors, easy for handicapped entry, and

great for those few claustrophobic visitors to "just take a peek" (and then feel very comfortable coming in).

ON DISPLAY at the ASTC meeting, October 17-18

GAMING IN THE DOME

We have now successfully ported Unity™-based simulations into the mirror system. Perfect for explorations and games.

Available games include:

Armstrong Base Trucking
Drive a truck or a car down Shackleton crater

Mars Flyer
Fly a jet plane over actual Mars topography

Also we have more traditional "games" - shooter games, fly through rings, drive a car through hoops or control robots - all included in the **Fishtank** package. See the video from the Video Gamers United Convention at:

eplanetarium.com/gaming.php

And a new personal size dome ... perfect for home use!

Discovery Dome is the best portable planetarium in the world, thanks to...

High Quality Products

We provide the best modular planetarium systems, with Newtonian or Fisheye projection equipment, advanced sound systems, and support items.

Walk-in Dome

Stand up entry, no crawling required; continuous entry and exit to the advanced surface dome without disrupting a show; handicapped accessible!

Upgradeable Components

High-end components can be upgraded or maintained anytime, without the need to stop on-going activities and plans or change the entire system.

More Kinds of Content

Show pre-warped, fisheye (using real-time warper) or flatscreen content (using lower central part of the mirror). With a 3D blu-ray player show active 3D content using our native 3D projectors and active glasses. Makes an AWESOME widescreen 3D experience!

Highly Mobile System

Fast set-up (less than 20 minutes) and take down, easy to operate, and easy to carry in a compact car and check as airline luggage.

Wide Topic Choices

Our shows cover a large knowledge and entertainment spectrum, including arts, sciences, history, philosophy, etc.
